

INTERNATIONAL ADMISSION

THE UNIVERSITY of
TULSA

THE CITY OF TULSA

If you’re considering studying in the United States, Tulsa, Oklahoma — located in the heart of the nation — is a terrific choice. Oklahoma’s second largest city (with a metropolitan population of more than 1.1 million), enjoys four seasons with mild winters and hot summers. There’s always something to do in Tulsa, the perfect combination of small city friendliness with big city amenities.

- Concerts at the BOK (Bruno Mars, Justin Timberlake, Taylor Swift, Coldplay, Katy Perry, etc.)
- 6,000+ acres of parks, bike & running trails
- Fine and performing arts (including Broadway shows)
- Coffee shops and 1,100 restaurants
- Gilcrease, Philbrook and other museums
- Ten minutes to TU from the Tulsa International Airport
- Professional sports:
 - Tulsa Drillers (Baseball)
 - Tulsa Roughnecks (Soccer)
 - Tulsa Oilers (Hockey)
 - Oklahoma City Thunder (NBA) plays in Tulsa once a year and home games in Oklahoma City are not far away.
- “10 Best Cities for Young Entrepreneurs” by *Forbes*
- “Most Budget Friendly Metros” by *Apartment Guide*
- #7 “Most Affordable College Towns” by *Great Value Colleges*

DISTANCE FROM TULSA TO:

A portrait of a young man with dark hair and a beard, wearing a dark suit, white shirt, and patterned tie. He is smiling and standing in front of a stone building with arched windows.

Ahmed Al-Suwat

Jeddah, Saudi Arabia ■ Mechanical Engineering

“People here are friendly and connected, the faculty is caring and the small classes make students more noticeable. There are many organizations that help you find your interests. For me, volunteering for a nonprofit organization became one of my favorite things. The city is relatively small, but has nice restaurants and places to hang out. You can get around easily through town, and people are friendly.”

A portrait of a young man with short brown hair and a beard, wearing a light blue t-shirt. He is smiling and standing in front of a stone building with a wooden door.

Guilherme Lopes de Almeida

Belo Horizonte, Brazil ■ Petroleum & Mechanical Engineering

“When I first decided to apply for U.S. universities, I knew I wanted a school that had a strong petroleum program. I visited the university and fell in love with the campus. I thought it was the perfect size. Also, I really liked how I was treated here. The people were all very nice and made me feel at home.”

The diversity of people that are on this campus with so many backgrounds and stories surprised me. I’ve met people from places I have never heard of, and I love it! TU is great at making people feel welcome, and I guarantee that there is no better place to be.”

A portrait of a young woman with long brown hair, wearing a white button-down shirt. She is smiling and standing in front of a stone building with a wooden door.

Selma Sentissi El Idrissi

Agadir, Morocco ■ Computer Information Systems/Computer Science

“I was very interested in TU because of the class sizes, the number of majors offered and the school’s ranking. The classes were very well organized, and the teachers were very qualified. They listen to the students’ needs. It’s wonderful how much teachers and advisors are here for you wherever you came from.”

Linh Phan

Vungtau, Vietnam ■ Accounting & Finance/Psychology

“TU is so welcoming. People care and know and remember you, so it is easy to make friends.

I think TU does a good job of helping you. Orientation Leaders are there to be your first friends and connect you to other people. And university staff members are always there for just anything as well. We have good professors with hearts. They care and do more than just teaching. We have a community that can support you in all aspects.”

Rafaela Diaz

Quito, Ecuador ■ Computer Information Systems

“I definitely made the right choice coming here. I love everything about TU: the amazing campus green spaces, the beautiful library, and the welcomes from everyone. TU offers a great variety of social events that students can enjoy during their free time or weekends; however, students are also encouraged to be academically responsible and successful.

TU encourages students of all ethnicities to get involved. I have met a lot of new international and American friends who have taught me so much during my freshman year, and the best thing is having them in my life.”

Lijia Dai

Shenzhen, China ■ English/Art History

“Everyone here says ‘Hello,’ or ‘How are you?’ and ‘Thank you.’ Those little things mean a lot when you are far from home.

What I have discovered about myself is that when I go to other cities, I miss my home in Tulsa!”

CAMPUS LIFE

Need a study break? You don't need to go far. There's plenty to do at TU!

- Green spaces for autumn strolls, winter snowmen or springtime soccer.
- Exercise and play sports in the Collins Fitness Center
- Cheer for 17 Golden Hurricane Division One intercollegiate teams
- Lectures by renowned authors, scientists, journalists and performers, e.g., Common, Nina Totenberg, Michael Ondaatje, Richard Preston, Azar Nafisi, Dennis Lahane, etc.

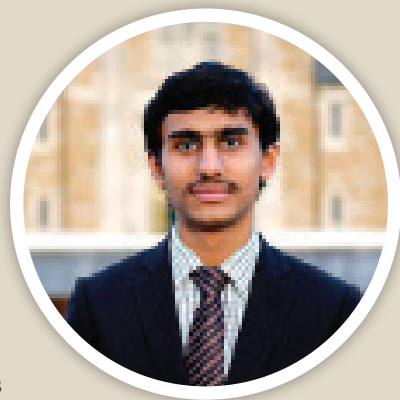

You can participate in more than 200 campus organizations including honor societies, pre-professional associations, special interest groups and community service projects.

I came to TU because it has a high-quality, world-renowned petroleum engineering program.

When I first arrived, I associated more with other international students, but I eventually embraced a larger breadth of cultures. My involvement in cultural and international organizations helped my assimilation.

As president of the Association of International Students, I worked with a diverse group of students of various ages and levels of experience. I don't think I'm a natural leader, but this experience gave me the tools to become better.

In the future, my TU leadership experience will be useful in a business setting. Of course, corporate leadership or leadership in any other context will present new challenges, but this experience will guide me on how to deal with many situations.

– Vandit Trivedi, Kuala Lumpur, Malaysia ■ Petroleum Engineering/Mathematics

THINK RESULTS

At TU, research projects offer students opportunities to learn outside the classroom. Students have the chance to pursue funded research beginning as early as their freshman year through the Tulsa Undergraduate Research Challenge (TURC). Also, international students may apply for Optional Practical Training to get internships for real-world experience that applies to their careers.

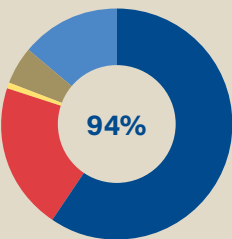

TU alumni regularly make a mark in the world: Philip McAllister managed the mobile engineering department at Instagram. Doug McMillon is the president and CEO of Walmart. Mark Radcliffe produced the first two Harry Potter movies. His Excellency Mohammed bin Hamad Al Rumhy is the Minister of Oil and Gas of the Sultanate of Oman.

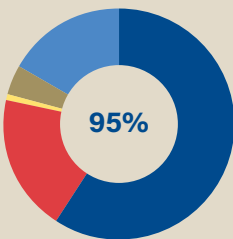

Our guarantee is that you will find a job within six months of graduation. If you do your part and don't land a job within this time, you'll receive FREE TUITION for your first semester in one of our master's degree programs.

CLASS OF 2021-22 PLACEMENT BY COLLEGE

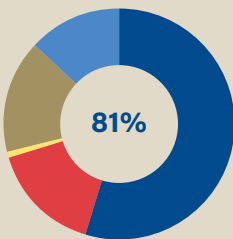

KENDALL COLLEGE OF ARTS & SCIENCES

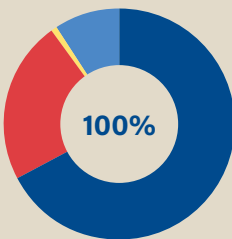

COLLINS COLLEGE OF BUSINESS

COLLEGE OF ENGINEERING & NATURAL SCIENCES

OXLEY COLLEGE OF HEALTH SCIENCES

■ Employed ■ Continuing Education ■ Not Seeking ■ Seeking ■ Unreported

PAYSCALE SALARIES FOR TU GRADUATES

\$65,500 – average early career salary • \$111,600 – average mid-career salary

FOUR COLLEGES, ENDLESS OPPORTUNITIES.

KENDALL COLLEGE OF ARTS & SCIENCES

Anthropology
Art
Art History
Studio Art
Art, Culture and Entertainment
Management
Economics
English and Creative Writing
Environmental Policy
Film Studies
