*Dissertation: saha araştırması (fieldwork) for large ensemble, objects, and electronics.*  
(advisor: Augusta Read Thomas, committee members: Sam Pluta, Seth Brodsky)  
*Minor Field Paper (Music Theory): New Opera Between Text and Performance.*  
(advisor: Seth Brodsky, committee members: Steven Rings, Augusta Read Thomas)  
Studies with Augusta Read Thomas (dissertation advisor), Anthony Cheung, Marta Ptaszyńska, Shulamit Ran.

2012 **B.M.-M.M.** The Peabody Institute of the Johns Hopkins University, Composition, Pi Kappa Lambda.  
Studies with Michael Hersch.

## Teaching Experience

---

### University of Tulsa

#### **Composition**

Composition IV: Second part of an intermediate composition course focusing on orchestration, advanced form, and contemporary techniques.

Composition III: First part of an intermediate composition course focusing on orchestration, advanced form, and contemporary techniques.

Introduction to Composition II: Second course in introductory sequence exploring material and design elements of music composition.

Introduction to Composition I: First course in introductory sequence exploring material and design elements of music composition.

Composition Seminar: Weekly seminar with composition students discussing the aesthetics and professional aspects of composition, featuring guest artists.

#### **Media Scoring**

Film Scoring Workshop: Advanced course on scoring music for film. Students compose original film cues, collaborate with student directors, and create orchestral music for a live recording session.

Introduction to Film Scoring: Introduction to the art and technology of scoring music for film. Students compose original film cues and collaborate with student directors.

### **General Electives for majors and non-majors**

Sounds of Sci-Fi: A seminar exploring the role of sound in our understanding of sci-fi, through creative and analytical work.

Music and Film: A chronological survey of the musical techniques and styles used in film, and the strategies for analyzing and evaluating film music.

### **Private Instruction**

Mentoring private composition students as part of Composition III and Composition IV.

Mentoring senior capstone projects in composition.

Independent studies in electronic music composition.

## **Carleton College**

### **Composition**

Composition Studio: Composition course exploring material and design elements of music, with a focus on writing for different instrumental combinations. Course also involves a community partnership element with "The Key," a youth-led youth organization.

### **Electronic Music**

Computer Music and Sound: Intermediate course on interactive computer programming for music.

Performing with Electronics: Part survey-part creative course about using electronics in live settings.

Introduction to Music Technology: Introductory course on electronic music composition and studio techniques.

### **Music Theory and Musicianship**

Musicianship I-II: Two-course sequence that focuses on developing aural skills through sight-singing using solfège, as well as rhythmic, melodic, and harmonic dictation.

Music Fundamentals: A course that introduces students to the fundamentals of musical time and pitch space, as well as its notational conventions.

### **Upper level Seminar**

Ambient Music: Upper-level undergraduate seminar on aesthetics and politics of ambient music and immersive sound.

### **Private Instruction**

Private studio of composition students.

Mentoring senior capstone projects in composition.

## **University of Chicago**

### **Lectureships**

Introduction to Western Art Music.

Introduction to Music: Analysis and Criticism.

Introduction to Music: Materials and Design.

### **Course Assistantships**

Electronic Music I: Composing with Sound.

Approaches to Live Electronics.

Introduction to Music: Analysis and Criticism.

Introduction to Music: Materials and Design.

Harmony and Voice-leading sequence (also ear training and keyboard harmony instructor).
